UNIOR

Unior d.d. has been a producer of hand tools in Slovenia since 1919. The company has over 2000 employees and maintains an international network of associated companies and distributors who successfully represent Unior in numerous countries worldwide. The company is divided into three main divisions: Forging and Sintered Parts (where we supply forging parts for the automotive industry, producing forgings for steering mechanisms, connecting rods for engines, drive shaft elements, gearbox components, and more, which are supplied to many of the world's largest car manufacturers); Hand Tools; and Special Machines (specializing in custom CNC machines).

Advantages of our hand tools are:

High quality hand tools, made in Europe (ISO 9001 certified), awarded with European Quality Trademark with more than 86 % made in EU: <https://uniortools.com/eng/about-us/eqtm>.

Good and stable purchasing sources (Unior is a co-owner of Steel processing factory in Slovenia).

Many years of experiences through all production processes (forging, machining, heat treating, surface protection and other).

Own development and quality department with testing facilities.

Production flexibility (complete production circle is done in-house).

Lifetime warranty for the tools.

Wide range of different tools and workshop equipment, such as standard industry tools, motorbike tools, automotive tools, bike tools, insulated tools (VDE certified up to 1000V) and other.

Fast deliveries.

We offer marketing, technical, sales and logistics support.

Unior is a global company, so we are aware that a strategic approach to sustainable development is vital, both for today and for the future.

Designed for **DEMANDING MAINTENANCE IN CAR REPAIR WORKSHOPS, AGRO SERVICES AND MAINTENANCE IN THE INDUSTRY.**

TC LABEL
CONFIGURATOR

At Uniort Hand Tools we are constantly striving to enable our customers to personalize and costume their work environments. To this end, we have already developed the so-called 3D Configurator, which allows our customers to design and set up a workshop online, perfectly tailored to their wishes and needs. This time, we are introducing a new step towards workspace flexibility - the TC Label Configurator. This is to enable our customers to organize their workspaces in a systematic and simplified way.
